## *History of the Common Council of the City of Indianapolis*

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermanic districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment of the 1891 Indianapolis Charter, modified to make the Indianapolis system applicable to all classes of cities of the state. The 1905 law increased the term of Mayor and councilmen to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

## *History of the City-County Council of the City of Indianapolis*

In 1969 the legislature enacted a law, popularly known as the "Unigov Act," which consolidated the City and County into one governmental unit. The act further provided for the creation of an interim City-County Council which served as the legislative body for the City and County until the new Council was selected in November, 1971, and took office in January of 1972.

The act provided for the division of the County into twenty-five single member councilmanic districts, each district electing one resident from that district. In addition, there were four at-large councilmen, elected by voters of the entire county.

Unified Government of Indianapolis-Marion County is an attempt to make metropolitan government simpler, more functional and more responsive to citizens' needs. Under the new structure, six major departments replace the more than sixty which were in existence previously.

Ms. Jean Wytttenbach, City Clerk  
240 City-County Building  
Indianapolis, Indiana 46204

Dear Ms. Wytttenbach:

The Metropolitan Development Commission has officially approved the **Minigov Communities Plan**, as required by state statute, on December 20, 1972, and hereby transmits same to the City Clerk for certification and subsequent action by the City-County Council.

The official set of 1000' (' meaning foot) scale maps delineating the Minigov Community Council areas is correct as to actual boundaries to the best of our knowledge. However, the Town of Lynhurst was inadvertently not recognized as an Included Town on Map No. 8—Communities Plan in the Minigov Communities Plan documents.

New maps (Map No. 8) are being reprinted for insertion into all printed **Minigov Communities Plan** documents. The copy being filed with your office does not reflect the correct status of Lynhurst as

an Included Town but the set of 1000' (' meaning foot) scale Communities Plan maps do. I will forward you a copy of corrected Map No. 8 as soon as it is reprinted.

Thank you.

Sincerely yours,

MICHAEL A. CARROLL,  
A.I.P. Director

CITY-COUNTY COUNCIL RESOLUTION NO. 6, 1973

BE IT RESOLVED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA

RESOLVED; The Unified Council commends Mayor Richard Lugar for his withdrawal of support for the annexation of certain areas in Decatur and Lawrence Townships into the Indianapolis Special Police and Fire District. The Council joins Mayor Lugar in his desire to find a better method to provide police and fire service to the citizens of Indianapolis. The safety and protection of the lives and property of the inhabitants of Indianapolis and Marion County, in their homes and communities, on the roads and highways of the city and in their places of employment is the proper business of the Mayor and this Council, and is of the highest priority.

Consequently, the Council herein requests of its Committee on Committees that a Special Committee of four councilmen be appointed before the next meeting of this Council; two representing areas presently in the police and fire districts, and two from areas outside these districts, to recommend to this Council within ninety days, a preliminary plan to provide fire and law enforcement services throughout the entire city in an equitable and efficient manner, construed to be acceptable to a majority of this Council, and devised with the wisdom and common sense needed to cause favor and support among the various services whose cooperation will be necessary. Though the task of this Committee is formidable and complex, the Council believes that

the committee's opportunity for success is greater than at any other time. The Council also requests that the Mayor appoint a fifth member, ex officio and non-voting, to meet with, counsel and assist the Special Committee in its search and deliberations.

The Council asks that all law enforcement, fire and budget agencies of local government cooperate with its Special Committee to the best of their ability.

WHEREAS, there has been prepared and referred to the City-County

May 1, 1973

Mr. Thomas C. Hasbrook  
President, City-County Council  
of Indianapolis, Indiana

Dear President Hasbrook:

I wish to veto Proposal No. 154, 1973 of the City-Council Council of Indianapolis Indiana and I am submitting this message in brief explanation of this veto.

Proposal No. 154 proposes City-County General Ordinance No. 21, 1973 to provide for parking on the southwest side of Indiana Avenue from West Street to Stadium Drive except during the rush hours of 6 A.M. to 9 A. M. and 3 P.M. to 6 P.M., Monday through Friday.

The proposers of this ordinance seek to stimulate business activity in the Indiana Avenue neighborhood and I share their enthusiasm for this objective. At the same time, I am certain that all citizens of Indianapolis would want to know that the Department of Development and Planning and the Department of Transportation have worked diligently to provide a sound basis for economic and civic progress in the Indiana Avenue area. The Midtown Sub-Area Plan has been proposed by the City and many neighborhood leaders have endorsed this plan.

Restoration of parking will create safety hazards and transportation congestion. Passage of this ordinance will set a precedent for additional attempts to seek economic activity by restoring parking to major streets and thoroughfares with all of the attendant hazards to public safety and very little assurance of new business for those seeking the advantages of curbside parking.

Surely the better course of action is private and public cooperation in providing additional off-street parking facilities, and this course of action has been proposed for Indiana Avenue. In addition, public and private planning efforts are absolutely necessary to stimulate economic vitality for neighborhood commercial centers. In my judgment, curbside parking will not save declining businesses but does offer an easy way, temporarily, to forget or ignore the entire neighborhood through momentarily popular but non-constructive action.

I appeal for your support in upholding this veto.

Respectfully,

RICHARD G. LUGAR  
Mayor

CITY-COUNTY GENERAL ORDINANCE NO. 31, 1973

A PROPOSAL FOR A GENERAL ORDINANCE regulating the procedure for settlement of disputes concerning wages or rates of pay and other terms and conditions of employment of members and employees of the Indianapolis Police Force and Indianapolis Fire Force.

BE IT ORDAINED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:

Section 1. This ordinance may be cited as the Police and Fire Force Arbitration Ordinance.

Section 2. The protection of the public health, safety and welfare demands that the members of the Police Force and Fire Force not be accorded the right to strike or engage in any work stoppage or slowdown. This necessary prohibition does not, however, require the denial to such municipal employees of other well recognized rights of labor such as the right to organize, to be represented by a labor organization of their choice, and the right to bargain collectively concerning wages, rates of pay and other terms and conditions of employment. Members of the Police Force may be represented by the Fraternal

Order of Police. Members of the Fire Force may be represented by the Indianapolis Fire-Fighters Association, Local 416, A.F.L.-C.I.O.

It is hereby declared to be the public policy of the Consolidated City to accord to the members of the Police Force and Fire Force all the rights and privileges heretofore established by statute, but they shall not have the right to strike or engage in any work stoppage or slowdown. To provide for the exercise of these rights, a method of abritration of disputes is hereby established.

Section 3. As used in this act the following terms shall, unless the context requires a different interpretation, have the following meanings:

(a) The term "police force" shall mean the Indianapolis police force established pursuant to the laws of this state;

(b) The term "fire force" shall mean the Indianapolis Fire Force established pursuant to the laws of this state.

(c) The term "director" shall be the Director of the Department of Public Safety of the Consolidated City of Indianapolis, who is hereby designated the bargaining agent for said City and for its Police Special Service District and Fire Special Service District. Section 4.

(a) The members of the police force shall have the right to bargain collectively with the city and to be represented by the Fraternal Order of Police in such collective bargaining as to wages, rates of pay, hours, working conditions and all other terms and conditions of employment.

(b) The members of the fire force shall have the right to bargain collectively with the city and to be represented by a labor organization in such collective bargaining as to wages, rates of pay, hours, working conditions and all other terms and conditions of employment.

Section 5.

(a) The Fraternal Order of Police shall be recognized by the city as the sole and exclusive bargaining agent for all the members

of the police force unless and until recognition of such labor organization is withdrawn by vote of a majority of the members of the Police Force.

(b) The Indianapolis Fire Fighters Association, Local 416, A.F.L.-C.I.O. shall be recognized by the city as the sole and exclusive bargaining agent for all of the members of the fire force unless and until recognition of such labor organization is withdrawn by vote of a majority of the fire-fighters.

Section 6. It shall be the obligation of the city, its Police Special Service District and Fire Special Service District, acting through the director and his designated representative, to meet and bargain in good faith with the representative or representatives of the bargaining agent within ten (10) days after receipt of written notice from said bargaining agent of the request for a meeting for collective bargaining purposes. This obligation shall include the duty to cause any agreement resulting from negotiations to be reduced to a written contract, provided that no such contract shall exceed the term of one (1) year and all such contracts shall be for a calendar year.

Section 7. In the event that the bargaining agent and the director are unable, within thirty (30) days from and including the date of their first meeting, to reach an agreement on a contract, any and all unresolved issues shall be submitted to arbitration.

Section 8. Within five (5) days from the expiration of the thirty (30) days period referred to in Section 7 hereof, the bargaining agent and the director shall each select and name one (1) arbitrator and shall immediately thereafter notify each other in writing of the name and address of the person so selected. The two (2) arbitrators so selected and named shall, within ten (10) days from and after the expiration of the five (5) days period hereinbefore mentioned, agree upon and select and name a third arbitrator. If on the expiration of the period allowed therefor the arbitrators are unable to agree upon the selection of the third arbitrator, the American Arbitration Association shall select him upon request in writing from either the bargaining agent or the director. The arbitrator, whether selected as a result of agreement between the two (2) arbitrators previously selected or selected by the American Arbitration Association, shall act as chairman of the arbitration board.

Section 9. The arbitration board shall, acting through its chairman, call a hearing to be held within ten (10) days after the date of

the appointment of the chairman, and shall, acting through its chairman, give at least seven (7) days notice in writing to each of the other two (2) arbitrators, the bargaining agent and the director of the time and place of such hearing. The hearing shall be informal, and the rules of evidence prevailing in judicial proceedings shall not be binding. Any and all documentary evidence and other data seemed relevant by the arbitrators may be received in evidence. The arbitrators shall have the power to administer oaths and to require by subpoena the attendance and testimony of witnesses, the production of books, records and other evidence relative or pertinent to the issues presented to them for determination.

The hearing conducted by the arbitrators shall be concluded within twenty (20) days of the time of commencement, and within ten (10) days after the conclusion of the hearings, the arbitrators shall make written findings and a written opinion upon the issues presented, a copy of which shall be mailed or otherwise delivered to the bargaining agent or its attorney or other designated representative and the director. A majority decision of the arbitrators shall be binding upon both the bargaining agent and the city.

Section 10. The arbitrators shall conduct the hearings and render their decision upon the basis of a prompt, peaceful and just settlement of wage or hour disputes between the members of the police force and fire force, as the case may be, and the city. The factors, among others, to be given weight by the arbitrators in arriving at a decision shall include:

(a) Comparison of wages or hourly conditions of employment of the police force and/or fire force with wage rate or hourly conditions of employment maintained for the same or similar work of employees exhibiting like or similar skills under the same or similar working conditions in the local area.

(b) Interest and welfare of the public.

(c) Comparison of peculiarities of employment in regard to other trades or professions, specifically:

- (1) Hazards of employment;
- (2) Physical qualifications;
- (3) Educational qualifications;
- (4) Mental qualifications;
- (5) Job training and skills.

(d) The lawful limits existing as to the revenues of the Police Special Service District and Fire Special Service District, as the case may be, and if the matter concerns wages, rates of pay or any expenditures of city funds, and is to be decided after August 15, with respect to the current or next calendar year, the limitations existing by reason of the appropriations adopted for that calendar year.

(e) Parity of wages and conditions of employment between the Police Force and Fire Force.

Section 11. Fees and necessary expenses of arbitration shall be borne equally by the bargaining agent and the city.

Section 12. Any agreements actually negotiated between the bargaining agent and the director either before, or within thirty (30) days after arbitration, shall constitute the collective bargaining contract governing members of the police force or fire force, as the case may be, and said city for the period stated therein, provided that such period shall not exceed one (1) year and shall be for a calendar year.

Section 13. Whenever wages, rates of pay, or any other matter requiring appropriation of money by the Police Special Service District Council or Fire Special Service District Council are included as matter of collective bargaining conducted under the provisions of this ordinance, it is the obligation of the bargaining agent to serve written notice of request for collective bargaining on the director and president of said Council on or before July 1st of the year preceding the contract period which is the subject of the collective bargaining procedure.

Section 14. If any provision of this ordinance, or application thereof to any person or circumstance, is held unconstitutional or otherwise invalid, the remaining provisions of this ordinance and the application of such provisions to other persons or circumstances, other than those to which it is held invalid, shall not be affected thereby.

Section 15. This ordinance shall be in full force and effect with respect to the police force from and after adoption and separate approval by the Police Special Service District Council and with respect to the fire force from and after adoption and separate approval by the Fire Special Service District Council, and publication according to law.

TO THE HONORABLE PRESIDENT AND MEMBERS OF THE  
CITY-COUNTY COUNCIL OF THE CITY OF  
INDIANAPOLIS-MARION COUNTY, INDIANA:

Ladies and Gentlemen:

Pursuant to the laws of the State of Indiana, I caused to be posted in three (3) public places and published in the Indianapolis News and the Indianapolis Commercial on June 21, 1973, and June 29, 1973, a "Notice of Special Meeting," for public hearing on Proposal Nos. 252, 254, 255, and 259, 1973, to be heard on Monday, July 16, 1973, in the Council Chambers, City-County Building at 7:00 P.M.

I also caused to be published in the Indianapolis News and the Indianapolis Commercial on June 21, 1973, General Ordinance No. 30, 1973.

Respectfully submitted,

JEAN A. WYTENBACH  
Clerk of the City-County Council

June 28, 1973

TO THE MEMBERS OF THE CITY-COUNTY COUNCIL  
OF INDIANAPOLIS, INDIANA:

City-County Proposal No. 260, 1973 which proposes City-County Special Resolution No. 19, 1973, was presented to me for my signature following passage by a 15-9 vote of the Council on June 18, 1973. The

proposal divides the Consolidated City into 54 districts in response to an Indiana Legislative mandate to implement the amended Minigov Legislation.

I have elected not to sign this legislation.

The Council, by the barest of constitutional majorities has met the requirement of the 1973 Indiana General Assembly to adopt new district lines for Minigov organization. The requirement has been met with substantial reluctance.

A large majority of Council members sought repeal of the entire Minigov concept. A majority of Marion County legislators spent much of the 1973 General Assembly session attempting to repeal Minigov. Throughout that session, I attempted to preserve the Minigov concept and the previous Minigov legislation. Those attempts failed.

The current Minigov concept as provided in Indiana Senate Bill #362 from the 1973 General Assembly does not fulfill the ideal of neighborhood government strengthened by appropriate delegation of powers and responsibilities to community boards. Understandably, many neighborhood organizations who participated heavily in the initial Minigov legislative efforts are no longer in active support of the new boundary and organizational features.

With most Marion County legislators, councilmen, and neighborhood leaders indicating hostility or benign neglect to the Minigov concept, the fate of Minigov can only be repeal or non-implementation.

Although Section 3 of Resolution No. 19 refers to "this Ordinance," I presume that the Council might wish to treat this proposal strictly as a Resolution, in which case, my signature is not required and the hobbled Minigov situation survives for submission to the Township Trustees.

On the other hand, if lack of a Mayoralty signature might be useful in providing a good time and place to wind up the Minigov controversy, I am hopeful that the Council will adopt that option.

Respectfully,

RICHARD G. LUGAR  
Mayor

June 28, 1973

TO THE MEMBERS OF THE CITY-COUNTY COUNCIL  
OF INDIANAPOLIS, INDIANA:

In 1967, a first grade patrolman on the Indianapolis Police Department received \$6,125 per year. This annual salary has increased to \$7,000, \$7,300, \$7,500, \$8,100, \$8,505, and now \$8,930, in successive yearly boosts. In addition, the clothing allowance has been boosted from \$200 per year in 1968 to \$600 per year currently. Three additional paid holidays have been granted and the annual pension rate for the life of a 25 year service retiree has been boosted from \$3,478 in 1967 to \$5,598 currently.

Compensation increases for firefighters have been equally favorable with a first class fireman now receiving \$8,930 annually as compared to \$6,000 in 1968. Parity between policemen and firemen has been restored.

Nevertheless, Indianapolis policemen and firemen contend that salaries and benefits need substantial boosts in order to be commensurate with the risks of these professions and in order to meet the problems of economic inflation faced by all citizens in our community. I am in agreement with their aspirations.

Many policemen and firemen have argued that City-County Council General Ordinance No. 31, 1973 cited as the Police and Fire Force Arbitration Ordinance would provide very substantial changes in the event that requests for desired increases were not met by the City-County Council and arbitrators selected by the parties involved awarded schedules well beyond the normal raises provided by previous local government procedures. Some Council members who would like to provide for assured continuity of police and fire services without threat of strike, slowdown, or abnormal absenteeism and who have wearied of the annual campaigns which seem to pit them against the best interests of policemen and firemen are equally enthusiastic about leaving the final decisions to non-elected third party arbitrators.

The overall philosophical decision is one which the Council may wish to resolve in favor of compulsory arbitration for vital civil government services.

I have decided to veto General Ordinance No. 31, 1973, because it

does not provide important guarantees that work stoppages will not occur or can be met successfully if they do occur, nor does it provide necessary safeguards to the overall public treasury. Furthermore, certain aspects of the proposed compulsory arbitration procedures should receive further study.

Specically, Section 2 states that members of the Police Force and Fire Force "shall not have the right to strike or engage in any work stoppage or slowdown." Having said this, no method of remedy is provided to the City to enforce this continuity of service. No penalties for violation of the law are mentioned. Presumably, Indiana law already prohibits such service disruptions.

A major benefit to the public from a new Indianapolis ordinance would be a greater degree of certainty that public safety will be constant and in return for that assurance, that policemen and firemen might achieve greater certainty of economic justice through compulsory abritration settlement of economic disputes. At minimum, assurance of continuing public service must be ironclad.

Sections 6 through 9 pertain to the compulsory arbitration procedure. The time limits for the hearings and for the presentation of findings are so stringent as to make meaningful collective bargaining difficult and resolution of disputes by the arbitrators a rather probable outcome. The City of Indianapolis enjoyed an experimental trial of compulsory arbitration settlement in a case involving sanitary workers in 1971. On that occasion, however, vigorous collective bargaining narrowed the range of demands and both sides presented a final total package with the abritrators limited to choice of one full package or the other. The final package presented by the City was selected but a selection of the sanitary workers's package would not have led to grievous taxpayer losses because both sides had attempted to make the most responsible final proposals.

Ordinance No. 31 does not provide for a contest to find the most reasonable settlement after extensive collective bargaining attempts have exhausted the parties. To the contrary, the arbitrators may adopt any settlement which meets rather general guidelines listed in Section 10 and limited only by "The lawful limits existing as to the revenues of the Police Special Service District and Fire Special Service District, as the case may be."

Both of those districts must fund equipment and property maintenance needs including communications, automobiles and trucks, sta-

tions, weapons, and other public safety gear in addition to provisions for salaries and individual compensation. In many settlements across the United States, schedules have been awarded by arbitrators with either a challenge or a mandate to local governments to raise the necessary money in some manner. Fiscal prudence demands that more specific limits on the extent of the City's liability be provided in advance, especially in view of property tax rate ceilings enacted by the Indiana General Assembly of 1973 and the likelihood that the Police and Fire Special Service Districts will remain approximately the same for the foreseeable future.

Section 4(a) should be amended to change the rather open ended terminology "other benefits" to specific topics which might be the subject of collective bargaining.

These recommendations are made only after considerable appreciation for the work performed by Council members, policemen, and firemen in the careful drafting of many provisions. The formulation of an ordinance which has the multi-million dollar per year implications of this legislation is a tedious responsibility which has engaged the attention of extraordinarily skilled attorneys throughout the United States in similar efforts in other cities.

I would suggest that a task force of attorneys well versed in collective bargaining law should be appointed to assist in the re-drafting of the safeguards suggested in this message. Policemen, firemen, and the public will be best served if the final product is precisely worded to stand many tests of time and potential misunderstanding to say nothing of lawsuits which seem to follow not only misunderstanding but even a reasonably clear understanding of issues in this community.

During the present budget hearings of 1973, the Council and the Mayor must consider the potential financial results if firemen and policemen are covered by new Federal Wage and Hour legislation which may provide time and one-half pay for overtime worked by public servants after various lengths of work weeks.

Thought should also be given to the results of State legislation which would preempt the field of public employee collective bargaining in the General Assembly of 1974.

During Council discussion on this ordinance, mention was made that it was patterned after legislation which failed in the 1973 General

Assembly of Indiana. If such legislation is introduced again in 1974, I am hopeful that it will incorporate the safeguards which I have mentioned in this veto message in order that local governments in Indiana might provide economic justice for policemen and firemen but have strong assurances of continuity of service and reasonable limits of liability to taxpayers.

Respectfully,

RICHARD G. LUGAR  
Mayor

## OLD BUSINESS

Councilman Kimbell submitted a written report of the Police and Fire Service Study Committee and suggested that no action be taken until the Council had time to study the report.

### REPORT OF THE SPECIAL COMMITTEE ON POLICE AND FIRE DISTRICT EXPANSIONS TO THE INDIANAPOLIS CITY-COUNTY COUNCIL

#### Fire Services

Indianapolis is fortunate to enjoy the services of a first rate professional fire department in the central area, and well-organized and operated volunteer departments in the suburban areas. Given the legal requirements for annexation to the city fire district, it is needless to give much thought to expansion of the city fire service area. The volunteer departments give outstanding service at low cost, and there is no need to interrupt or alter the pattern of fire service in

Marion County. Nevertheless, three conditions require the establishment of policy for future action on the part of the council.

**Consideration of petitions for annexation  
to the fire special service district.**

For various reasons, property owners may decide to present petitions for annexation into the fire special service district. The most obvious situation occurs when a businessman wishes to obtain a liquor license; present law unwisely dictates that such outlets must be located within the fire special service district. It would seem capricious to deny any property owner the right to exercise his options under the law and enter a successful petition for annexation. Furthermore, financial considerations indicate that the city fire department finds itself in a very tight revenue situation which makes such petitioned annexations very attractive as a means of spreading the burden of tax support for the city fire department. On the negative side are considerations of provision of fire protection to annexation sites which are not contiguous to the present fire service district and which are remote from existing IFD facilities. Also, annexation of suburban parcels to the city fire district removes that value from the tax base which supports, although at much lower rates, the activities of the volunteer departments.

It is suggested that non-contiguous annexation petitions related to liquor licenses be approved subject to agreement by all parties that the petitioner will enter into contract with the appropriate volunteer fire department for fire service, payable by the petitioner to the appropriate township fire unit in an amount equal to the assessed value of the property times the township fire rate.

**Expansion of paid fire departments in suburban departments.**

Although an immediate situation does not apply, it is conceivable that one or more townships may move in the direction of fully paid departments. Should this eventuate, we would recommend that a merger occur so that a proliferation of paid departments does not occur. A suggested guideline would be that, when the rate to support a fully paid suburban department reaches 75% of the rate for IFD, a merger will take place. We recommend such language to the Indiana General Assembly as a modification of the Unigov statute.

**Shared services:**

This committee recommends that certain services and support functions be shared by the various departments, both professional and volunteer, in Marion County. These would be:

**Training**—A new training facility is badly needed for all departments in the county. The investment should be made so that IFD could use the school during the day, and the volunteers at night. It should be paid for out of a county-wide fund.

**Fire Prevention**—Those suburban departments which do not want the added burden of providing a fire prevention bureau should contract this service with IFD. The tax support for the IFD fire prevention bureau should be made county-wide, perhaps by moving the bureau into the civil defense office of the division of buildings, DMD.

**Communications**—See separate section on emergency communications.

**Police Services**

The committee finds deficiencies in the present mode of providing police services to the people of Indianapolis and Marion County. The prime deficiency which demands immediate correction is the rancor and lack of cooperation, the public and childish bickering which divide the Indianapolis Police Department and the Marion County Sheriff's Department. This committee strongly criticizes those officials, both elected and appointed, who have allowed their petty differences to erupt in public print, to the definite detriment of sound law enforcement in the community.

The basic consideration, underlying the question of consolidation of police services, is the tax support used for the Indianapolis Police Department as compared to the tax support of the Marion County Sheriff's Department. Both departments are supported primarily by property tax collections: The rate for IPD in 1973 is \$1.46 per hundred, while that used for the law enforcement activity of MCSD is about 10c per hundred. The IPD rate is paid only by the property owners of the police special service district, whereas the sheriff's department derives support from all property taxpayers, whether inside or outside the old city limits. In effect, this community supports two large police departments: one group of taxpayers pays for both but receives the services of only one, an obvious inequity. Should an im-

mediate consolidation of IPD and MCSD occur, a reverse tax inequity would ensue; suburban residents would not a sharp increase in taxes for police services, while present police service district rates would drop significantly. While recognizing the present inequity, the committee rejects immediate and total annexation as a redress for the inequity. A more orderly, reasoned approach to annexation, based on service requirements is envisioned.

Without any other alternatives for funding equity or substantial tax support for police services, the committee finds that immediate and total annexation of the county to the police district would be improper. However, the eventual consolidation of police services, with the final development of a single, sophisticated, local law enforcement agency, is a principal which is fully supported by this committee.

The general rule of procedure which we recommend would be to annex areas to the police special service district as they demonstrate the need and requirement for intensive (as opposed to extensive) police patrol. The present ratio of full time, professional, public law officers in the police service district is 2.1 officers per 1,000 population; in the area services by MCSD, the ratio is .4 officers per 1,000. The comparison of crime statistics indicates that serious crime is accelerating in suburban Marion County, while the trend has been declining in the IPD district. This simply indicates that the growth areas for residential development lie primarily outside the police district, and that the incidence of crime is increasing with the growth of population. A recent performance study of various metropolitan areas conducted by the Council on Municipal Performance demonstrates that Indianapolis has the lowest ratio in the nation of crime incidence in the "inner city" as compared to "suburbia"; to state this statistical fact in another way, we have more crime in the suburbs in relation to crime in the city than any other major American city. This committee does not feel that the long range solution to this problem is the development of a second major police force, with all of the costly and sophisticated units and gear which this implies. Two police forces with headquarters only a block apart are not the answer to future law enforcement problems in Indianapolis.

#### **Gradual consolidation.**

The first step to determining which areas require greater concentration of patrol is a merging of the reporting functions of IPD and MCSD. This would require a consolidation of the jail and the city lock-up under the jurisdiction of the sheriff's department, and the

total use of the police computer system by MCSD. Neither of these improvements would require significant cash outlay, and should be undertaken at once. A plan already exists, on paper and in detail, for the suggested merging of activities.

Once this consolidation were effected, the MCSD could adopt the computer supported grid system for reporting crime by location. High crime areas become immediately visible on a daily basis, making it possible to predict with some accuracy target neighborhoods and to assign patrol activity accordingly. Presently, MCSD has no capability for such techniques.

Standards could be developed by the police planning group which would indicate when a neighborhood or census tract had developed a serious need for intensive patrol. Several existing IPD police beats in outlying areas could be selected for the purposes of setting a standard for criminal activity and its relation to population density. When a given area—census tract, geographical entity, etc.—showed by the grid system of crime reporting that criminal activity exceeded the norm or standard, annexation to IPD should occur, with the proviso that improved police service would follow. Other considerations would be, of course, population density and geographical logic. The present boundaries of the Indianapolis Police District, most notably in northern Warren Township, are confusing and meandering. Special attention should be given these areas, once a sound system of crime reporting is developed.

#### **Communications Center.**

The committee finds that the communications need for emergency services in Indianapolis merit special mention. Due to the ever growing cost and sophistication of modern communications systems, with their reliance on computer for rapid, accurate locating service, the committee strongly recommends a single emergency communications center for police and fire services (except for the excluded cities). We recognize that each agency wishes to maintain its autonomy and independence, and many units have absolutely no interest in joining such a center. We would not recommend that any agency be forced to participate. However, we do recommend the creation of a new county-wide police-fire communications center operated under the jurisdiction of the Office of Civil Defense, Department of Public Safety. The IFP and IPD communications centers would be shut down and consolidated into the new center. All other safety departments would be allowed to utilize the facility without fee. The facility would be modern in

every respect, offering the latest in technological support. Such a center would greatly aid the development of the 911 single emergency telephone reporting system. Officers could be detached from their various organizations and detailed to the Office of Civil Defense for the conduct of the activity. Plans for such a facility are already developed, and the committee recommends the promptest possible action toward this goal.

### Summary

No change in basic structure of present fire service organization

Qualifications for petitioned annexation to IFD district, protecting the financial interest of volunteer departments

Shared facilities—training, fire presentation—in fire services

Elimination of petty bickering between IPD and MCSD

Establish principal of eventual consolidation of police services, so that two major law enforcement units do not evolve in this county

Immediate consolidation of basic support services—jail, record keeping, computer support, tactical and strategic planning

Policy of annexation of areas as they demonstrate, by modern reporting and analysis techniques, a need for intensive patrol services

Creation of a county-wide emergency communication center, under auspices of the Civil Defense office, to service IPD, IFD, and other fire or police units desiring to join.

A PROPOSAL FOR A GENERAL ORDINANCE declaring that public acquisition of the Indianapolis Transit System Inc. is in the public interest of the City of Indianapolis, providing for creation of a public transportation corporation, and setting forth the boundaries of such corporation.

CITY-COUNTY GENERAL ORDINANCE NO. ----, 1973

WHEREAS, the management of the Indianapolis Transit System, Inc., an urban mass transportation system has requested the City-County Council determine whether the public is to acquire the system; and

WHEREAS, the City-County Council finds as stated in Sections 1 to 6 of this ordinance that public acquisition of the system fulfills one or more of the conditions required under the provisions of IC 19-5-2-9; now, therefore:

BE IT ORDAINED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:

Section 1. That the public acquisition of the Indianapolis Transit System, Inc. is in the public interest.

Section 2. That the establishment and maintenance of an urban mass transportation system rendering adequate service is essential to relieve traffic congestion which would otherwise prevent the rapid and efficient movement of persons and goods in and about the City, thus

interfering with the primary function of the streets, and which would otherwise prevent the rapid and efficient deploying of police cars, fire engines and other emergency equipment in and about the City, thus jeopardizing the health, safety and welfare of the general public.

Section 3. That the establishment and maintenance of an urban mass transportation system rendering adequate service is necessary to the proper utilization of the factories, stores, warehouses, commercial, professional and governmental offices, schools, recreational facilities and other places where members of the general public congregate.

Section 4. That the establishment and maintenance of an urban mass transportation system is necessary to the welfare of the general public in that it expands the economic and social opportunities available to the residents of the City and particularly those who for economic reasons; reasons of health, reasons of age or demonstrated unfitness to operate a motor vehicle, cannot freely move about except through the services rendered by an urban mass transportation system.

Section 5. That the establishment and maintenance of an urban mass transportation system rendering adequate service is a substantial factor in maintaining real property valuations in the central business district and in the various industrial and residential districts.

Section 6. That the establishment and maintenance of an urban mass transportation system is a substantial factor in furthering the purposes of the statutes intended to provide public housing, to provide for the redevelopment of blighted areas and to provide for public owned off-street parking facilities.

Section 7. That there is hereby created a public transportation corporation which shall be known as the "Indianapolis Public Transportation Corporation", which said transportation corporation shall be a distinct municipal corporation, as provided under IC 19-5-2-10.

Section 8. That the boundaries of the "Indianapolis Public Transportation Corporation", shall be coterminous with the boundaries of the Consolidated City of Indianapolis.

Section 9. That the executive and legislative powers of said 'Indianapolis Public Transportation Corporation' shall be reposed in its

Board of Directors, which said Board of Directors shall consist of seven members, to be appointed as provided by the applicable statutes.

Section 10. That the Indianapolis Public Transportation Corporation and its Board of Directors, shall have all powers granted pursuant to IC 19-5-2.

Section 11. If any provision of this ordinance, or applications thereof to any person or circumstances, is held unconstitutional or otherwise invalid, the remaining provisions of this ordinance and the application of such provisions to other persons or circumstances, other than those to which it is held invalid, shall not be affected thereby.

Section 12. This ordinance shall be in full force and effect from and after its passage, signature by the Mayor, and publication according to law.

#### BUILDING PERMITS AND DESIGN AND SUPERVISION

8-301 When Required. No person, firm or corporation shall engage in any building or construction activity, including but not limited to, the erection, construction, repair, alteration, conversion, removal, demolition, maintenance, moving, razing or remodeling of any new or existing structure or any part thereof; or the construction, installation, extension, repair, alteration, conversion, removal or maintenance of building equipment located in or connected directly to a new or existing structure unless a written building permit issued by the Division of Buildings, Department of Metropolitan Development, designating the pertinent real estate, is in force relative to the person, firm or corporation who will supervise or is contractually responsible for the accomplishment of such work, provided, however, that building permits shall not be required for the following work:

- (a) Ordinary repair or maintenance accomplished with regard to a structure where the activity does not include work which, if done improperly, is a potential health or safety hazard such as the changing of any load-bearing wall, partition or portion thereof, the cutting of any structural beam or bearing support, or change of parts of the structure affecting the exit-way requirements.

- (b) Ordinary repair or maintenance accomplished with regard to building equipment where the activity does not include work, which is done improperly, is a potential health or safety hazard such as the alteration or relocation of any standpipe, water supply, sewer drainage, drain leader, gas, soil, waste, vent or similar piping, electrical wiring, or mechanical work.
- (c) Erection of any sign in those categories of signs described in Section 8-802 (e) of this title.
- (d) Building or construction activity accomplished with regard to a structure, other than ordinary repair or maintenance, where the total cost of labor and materials does not exceed \$500, and the activity does not include work which, if done improperly, is a potential health or safety hazard, such as, without limiting the generality thereof, the following: the construction or alteration of a chimney or venting system; a change in exterior bulk or facade; the creation or cutting away of any load-bearing wall, partition or portion thereof; the creation, removal or cutting of any structural beam or beaming support; the creation, removal or change of any required means of egress; rearrangement of parts of a structure affecting the exit-way requirements; or a change of the use, group occupancy or structure type. This sub-section does not apply to the erection of signs.
- (e) Building or construction activity, other than ordinary repair and maintenance, accomplished with regard to building equipment where the total cost of labor and materials does not exceed \$500, and the activity does not include work which, if done improperly, is a potential health or safety hazard, such as, without limiting the generality thereof, the following: the installation of an electrical system, installation of an electrical service, increase in the number of circuits in an existing electrical system, increase in amperage of an existing electrical system, installation of an air conditioning, heating or refrigeration system, installation of water supply lines, installation or relocation of a fixture or the installation, relocation or addition to drain, waste or vent piping. Notwithstanding anything to the contrary stated hereinbefore, such written building permit shall not be required for building and construction activity accomplished with regard to the installation of house-hold appliances when such installation does not include the install-

ing of an electrical circuit. The term "house-hold appliances" shall mean all types of appliances ordinarily used now or hereafter in homes of single family occupancy and shall include, without limiting the generality thereof, the following: window air conditioner, refrigerator, refrigerator with automatic ice-maker, range, clothes dryer, clothes washer, dishwasher and trash crusher.

Notwithstanding the above-stated subsections, such work for which a permit is required may be accomplished without a permit being then in force in the circumstance where an emergency need for such work occurs on a day when the office of the Division of Buildings is not open for business and the person, firm or corporation who has accomplished such work applies for a building permit on the first day the office of the Division of Buildings is open for business after the initiation of such work.

8-302 How Building Permits Are Obtained. Application for a building permit shall be made to the Division of Buildings, Department of Metropolitan Development. The application shall be in writing on a form prescribed by the Division of Buildings and shall be supported with:

- (a) Three copies of detailed plans and specifications drawn to scale which indicate in a precise manner the nature and location of all work to be accomplished pursuant to the building permit. It shall be within the discretion of the Administrator of the Division of Buildings to accept three copies of a written statement indicating the nature and location of the work to be done pursuant to the building permit where such written statement describes the work as precisely as a copy of detailed plans and specifications drawn to scale.
- (b) Three copies of a plot plan drawn to scale which reflect the location of the structure in relation to existing property lines and which show streets, curbs and sidewalks, and proposed changes or additions to such streets, curbs and sidewalks; except, however, such plot plan shall not be required in the instance where all of the construction activity is to occur inside an existing structure.
- (c) An improvement location permit (which is currently issued pursuant to General Ordinance #39, 1971, adopted March 15,

1971, which can also be identified by its Metropolitan Development Commission docket number 71-AO-1), if required by the ordinance providing for the improvement location permit.

- (d) Written approval from the Marion County Health and Hospital Corporation for any contemplated private water supply or private sewage disposal system.
- (e) Written approval from the Administrative Building Council of the State of Indiana, if required by Indiana law or any rule or standard of the Administrative Building Council.

In the instance where a building permit is requested for the purpose of allowing the demolition or razing of a structure, such application shall be supported with a written statement from each utility that its service to the premises has been disconnected and a written statement from the record title holder of such premises which authorizes the demolition or razing.

8-303 Structures Requiring Professional Services or Architects or Engineers—Plans and specifications for every structure other than one- and two-family dwelling houses, and structures appurtenant or accessory thereto, shall be designed by and prepared under the control and supervision of a registered architect or engineer duly licensed to practice in the State of Indiana.

All plans and specifications required to be designed by and prepared under the control and supervision of a registered architect or engineer, when submitted with an application for a building permit, shall bear the stamp or seal and registration number of such architect or engineer and shall be accompanied by the usual form of certification in triplicate which is now or may be hereafter prescribed for use by architects and engineers by the Administrative Building Council of the State of Indiana.

8-304. Scales of Plans—All plans shall be drawn to scale or scales suitable to illustrate the work using accepted professional practices. Drawing scale or scales must be noted on each sheet. Drawings not so noted shall not be accepted.

8-305. Numbering Prints—All prints, or other drawings or plans, in sets, shall be numbered, and an index furnished on the first print, or drawing or plan, setting forth each sheet and the character thereof.

8-306. Who May Obtain—Only a person, firm or corporation included in a category listed below may be issued a building permit:

- (a) Any person, firm or corporation who is currently certified in accordance with Chapter Four of Title 8; or
- (b) Any person who is either a registered architect or registered engineer licensed to practice in the State of Indiana for the sole purpose of obtaining a building permit to allow the accomplishment of work relative to which the Administrative Building Council of the State of Indiana was required to and has given prior approval; or
- (c) Any person for the sole purpose of obtaining a building permit to allow such person himself to accomplish work on a one- or two-family residential dwelling house or building appurtenant or accessory thereto on property which is both owned and possessed by such person and which is not being modified for the purpose of sale or lease to another; or
- (d) Any person, firm or corporation which is licensed under Chapter 12, 14 and 15 of this title or is registered under Chapter 13 of this title for the sole purpose of obtaining a building permit to allow the accomplishment of work relative to which the person, firm or corporation holds a municipal license, or in the instance of plumbing work, a state license.

8-307. Issuance of Building Permit—A building permit shall be issued if:

- (a) The application and supporting information required by Section 8-302 have been properly prepared and submitted; and
- (b) The application and supporting information filed in accordance with Section 8-302 reflect compliance with the standards reflected in Title 8; and
- (c) The fee has been paid in compliance with Chapter 16 of Title 8; and
- (d) The applicant for the building permit complies with the requirements of Section 8-306; and

- (e) The applicant is the person, or an agent of the person, who will either actually accomplish the work, supervise accomplishment of the work or is contractually responsible for accomplishment of the work allowed by the building permit.

The Division shall mark all plans as approved and then return two copies of the detailed structural plans and two copies of the plot plan to the applicant.

8-308. Permit and File Stamped Plans to be Available—Any person, firm or corporation to whom a building permit has been issued shall prominently display such permit at the job site during construction and shall have available for inspection at all times and plans and specifications bearing the file stamp of the Division of Buildings. Any change in such plans and specifications, except for minor deviations that neither diminish structural quality nor would cause non-compliance with applicable state or municipal building standards, shall be filed with and approved by the Division of Buildings prior to the time construction involving the change occurs.

8-309. Expiration by Operation of Law—If the work or activity for which a building permit has been issued has not been commenced within one hundred fifty (150) days from the date of its issuance, the permit shall expire by operation of law and shall no longer be of any force or effect; provided, however, the Administrator, Division of Buildings, Department of Metropolitan Development may, for good cause show in writing, extend the validity of any such permit for a new additional period not to exceed sixty (60) days. Such extension shall be entered on all plans previously file marked.

8-310. Defacing Permit—It shall be unlawful for any person to intentionally remove, deface, obscure, mutilate, mark or sign a posted building permit without authorization from the Division of Buildings.

That Chapter 4 of the present code is hereby repealed and this section is inserted in its stead as follows:

#### Chapter 4

#### CERTIFICATION OF CONTRACTORS

8-401. Certification of Contractors. Any person, firm or corporation who has entered into a contractual relationship with another per-

son, firm or corporation to engage in any building or construction activity, including but not limited to, the erection, construction, repair, alteration, conversion, removal, demolition, maintenance, moving, razing or remodeling of any new or existing structure or any part thereof; or the construction, installation, extension, repair, alteration, conversion, removal, or maintenance of building equipment located in or connected directly to a new or existing structure, must be certified by the Board of Contractors Certification, Division of Buildings, Department of Metropolitan Development. This requirement shall not apply, however, with reference to persons, firms or corporations who are described in Section 8-306 (b), (c) or (d) and whose construction work is confined to the activities described in those subsections.

8-402. General Bonding Provision—As a part of the certification, any such person, firm or corporation referred to in Section 8-401 shall pay to the Division of Buildings, Department of Metropolitan Development an annual certification fee of ten dollars (\$10.00) and shall for each period between August 1 and July 31 of the following year, post a \$2,500.00 corporate surety bond with the Division of Buildings, Department of Metropolitan Development, in which the City of Indianapolis, or its nominee or nominees, and an unknown third party, shall be named as obligees and which shall be conditioned on the performance of the work for which any such permit is issued in accordance with the standards provided for by this building code, and by rules and regulations of the State Administrative Building Council. Each such surety bond shall be a continuing obligation and depending on when obtained, shall remain in full force and effect for a period in excess of one year and up to two years. Such surety bond posted on August 1 of a given year shall remain in full force and effect until July 31 of the second year following. Any bond posted after August 1 of a given year but before July 31 of the year following shall remain in full force and effect until July 31 of the second year following the August 1, preceding the date when the bond is posted. Since a new bond is required each year, it is the intention of this section to require that persons, firms or corporations continuing in operation to have two surety bonds in effect at any given time. In the instance where a person, firm or corporation is licensed as a heating and cooling contractor in accordance with Chapter 15 and has posted a \$2,500 corporate surety bond as required by Section 8-1507 (a) such heating and cooling contractor shall not be required to post a single bond for the one-year period from August 1 until July 31 of the following year, but rather may submit two bonds which comply with Section 8-1507 in all respects except that they together cover the period of time from August 1 until July 31 of the following year.

8-403. Board of Contractors Certification. There is hereby created a Board of Contractors Certification, hereafter referred to as the "board" which shall be composed of seven members. The Administrator and chief building investigator shall serve as ex-officio and non-voting members of the board, and five members shall be appointed by and serve at the pleasure of the Mayor. All of the appointed members of the board shall have had at least five years' experience as contractors. Appointments shall be made in such manner that varied fields of contracting are represented on the board. Three members shall be appointed for one-year terms and two members shall be appointed for two-year terms. Thereafter, all such members of the board shall be appointed for two-year terms. Each of the appointed members shall be residents of Marion County and shall serve without compensation. The board shall have jurisdiction over all persons desiring to be engaged in this county as certified contractors.

8-404. Organization of Board—The Board shall elect one of its members as a chairman at its initial meeting after appointment, to serve for the balance of the year. Thereafter, the Board shall meet annually in each January, on a date specified for regular monthly meeting in the office of the Administrator of Buildings, and elect a new chairman and any other officers, who shall serve one year.

8-405. Meetings of Board. The Board shall hold regular meetings one time each month, at the office of the Administrator of Buildings, if there is some business to come before the Board. Special meetings may be called by the chairman or any two members upon giving written notice fixing the time and place of the meeting at least two days in advance of the special meeting. Three (3) voting members of the Board shall constitute a quorum for the transaction of all business. No action of the Board shall have any force or effect, however, unless concurred in by a majority of the voting members of the Board.

8-406. Record of Proceedings. Registry of Certifications. The Board shall keep a record of its proceedings and of all persons, firms and corporations who are registered as certified contractors.

8-407. Board's Certification The certification of a contractor shall be entered upon the Board's Certification Registry for such person, or to such firm or corporation, as the case may be, if:

- (a) An application form indicating the name, address and legal status of the contractor is submitted to the Division of Buildings; and

- (b) The certification fee is paid in compliance with Section 8-402; and
- (c) A Surety Bond is posted in compliance with Section 8-402; and
- (d) The certification of the person, firm or corporation has not been revoked within a period of the preceding 365 calendar days and neither any person nor any partner in a firm nor any officer in a corporation applying for certification has either had his certification revoked within a period of the preceding 365 calendar days as a sole proprietor or was a partner in a firm or an officer in a corporation which had its certification revoked within a period of the preceding 365 calendar days.

No prerequisites other than the four listed in this section shall be imposed in determining which persons, firms and corporations may be registered as certified contractors. All certifications and renewals shall expire on the thirty-first of July each year.

No certification shall be issued to any person, firm or corporation as a Certified Contractor except as provided in this chapter.

8-408. Renewal of Certification. Each contractor to whom a certification has been issued under the provisions of this chapter, may obtain a new certification for the following year from the Board upon the payment of the annual certification fee and the posting of the Surety Bond as required by this chapter. A certification is not transferable from one person, firm or corporation to another.

8-409. Suspension or Revocation of Certification.

- (a) If after any person, firm or corporation obtains a certification, or any renewal thereof, as a Certified Contractor pursuant to the provisions of this chapter, and thereafter the Administrator of Buildings discovers a violation of state or municipal building standards, revokes a building permit or issues a Stop-Work Order to such Certified Contractor and the violation(s) causing any of these actions are uncorrected for a period of ten (10) days from date of issuance of notice of building code violation, revocation of permit or issuance of Stop-Work Order, or in the instance where a period of ten days is not sufficient, such longer period of time as may be fixed by the Administrator of Buildings in writing, then the

Board may suspend or revoke the certification of the person, firm or corporation. The order suspending or revoking the certification shall be made at a hearing. At least ten (10) days before such hearing, the Board shall serve a written notice of the time and place of hearing upon the Certified Contractor. Said service shall be made either personally to the person, or personally to a member of the firm, or personally to an officer of a corporation, or by United States Certified Mail, Return Receipt Requested, addressed to the Certified Contractor at the address shown on the Certified Contractor's application for Certification. The ten or more days shall run from the date such notice is so served, or placed in the United States Mail, as shown by the postmark thereon.

- (b) The Certified Contractor may appear in person, by agent, or by counsel and produce evidence (including testimonial and documentary evidence), make argument and cross-examine witnesses at such hearing. The Division of Buildings shall have the same right. The Board may cause or allow any other relevant evidence to be introduced. On the basis of the evidence presented at the hearing, the Board shall decide whether such certification should be either suspended, revoked, or unaffected, and the Board shall enter an order in accordance with such findings, which order, however, shall not become effective until ten days after notice and a copy thereof has been served upon the Certified Contractor, in the same manner required as aforesaid for notice of the hearing.
- (c) On or before ten (10) days after such service of said order, the Certified Contractor may appeal therefrom to the Director, Department of Metropolitan Development, by serving a notice of appeal upon him either in person or by filing it at his office with a copy thereof delivered to said Board, at the office of the Administrator of buildings, who shall deliver such copy to said Board. Unless such appeal is so taken the aforesaid order of the Board shall be final.
- (d) If so appealed, such order of the Board shall be stayed until the appeal is heard and determined by the Director, under the procedure prescribed by Chapter 129 of the Acts of 1905, as amended. He shall thereupon, within thirty days after appeal, render such decision as he finds justified and sustained by the evidence either affirming, reversing, or modifying the terms of the order of the Board. The Director's order shall be final

and conclusive and be binding upon both the Certified Contractor and the Board.

8-410. Improper Display. It shall be unlawful for any person who is not registered as a Certified Contractor to use the word "certified" in connection with his business. Such a person shall not, for example, use the word "certified" on any display used for advertising or identification or on any of his business forms.

That Section 8-501 of the present code is hereby repealed and this section is inserted in its stead as follows:

8-501. Filing Required—Within sixty (60) days after completion of any work for which a building permit has been issued pursuant to the provisions of this Building Code or any amendments, additions or supplements thereto, the responsible architect, if any, engineer, if any, and the person, firm or corporation to whom the building permit has been issued, shall file with the Division of Buildings, Department of Metropolitan Development, a duly verified and acknowledged certificate of completion and compliance in the following form:

A current copy of the Fire Codes formulated by the National Fire Protection Associ-

ation, a multi-volume publication, as amended from time to time hereafter, shall be available for public inspection during regular business hours in the office of the Bureau of Fire Prevention or Division of Buildings. sion of said project areas in a contract (which also includes other project areas) between the Department of Metropolitan Development and the United States Department of Housing and Urban Development, including the financial assistance therefor.

WHEREAS, it is provided in such Act that contracts for financial aid thereunder shall require that the Urban Renewal Plan for the respective urban renewal area included in the Neighborhood Development Program (hereinafter "Program") be approved by the governing body of the locality in which the area is situated and that such approval include findings by the governing body that: (1) the financial aid to be provided in the contract is necessary to enable the Program to be undertaken in accordance with the Urban Renewal Plan; (2) the Urban Renewal Plan will afford maximum opportunity consistent with the sound needs of the locality as a whole, for the rehabilitation or redevelopment of the urban renewal areas by private enterprise; (3) the Urban Renewal Plan conforms to a general plan for the development of the locality as a whole; and (4) the Urban Renewal Plan gives due consideration to the provision of adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the sites covered by the Plan and Program; and

## **PETITIONS, MEMORIALS, SPECIAL RESOLUTIONS AND COUNCIL RESOLUTIONS**

Vice President SerVaas called for presentation of petitions.

*PROPOSAL NO. 492, 1973.* Introduced by Councilman West. Councilman West read the proposal for a Council Resolution expressing to the Environmental Protection Agency its opposition to the Proposed Regulations of the Federal Transportation Control Plan for Indianapolis of the Environmental Protection Agency and supporting the statements of the Mayor of Indianapolis and the Council's Committee on Economic Development at EPA public hearings in Indianapolis, November 28 and 29. Following discussion, Councilman West moved, seconded by Councilman McPherson, to adopt Proposal No. 492, 1973. The proposal was adopted by unanimous voice vote. Proposal No. 492, 1973, was retitled Council Resolution No. 16, 1973, and reads as follows:

### **COUNCIL RESOLUTION NO. 16, 1973**

A PROPOSAL FOR A COUNCIL RESOLUTION expressing to the Environmental Protection Agency its opposition to the Proposed

Regulations of the Federal Transportation Control Plan for Indianapolis of the Environmental Protection Agency and supporting the statements of the Mayor of Indianapolis and the Council's Committee on Economic Development at EPA public hearings in Indianapolis, November 28 & 29.

WHEREAS, the City of Indianapolis and the County of Marion over the past six years have successfully instituted numerous environmental improvements by a professionally managed air pollution control program in keeping with the federal goals of the Clean Air Act of 1970; and

WHEREAS, the Mayor of the City of Indianapolis, the Economic Development Committee of the City-County Council of Indianapolis-Marion County, many City and County officials, and numerous citizens representing a wide variety of business, labor, and commercial interests all have testified in opposition to the Proposed Regulations of the Federal Transportation Control Plan for Indianapolis of the Environmental Protection Agency; and

WHEREAS, this testimony has demonstrated general community leadership consensus that these proposed rules (1) would severely undermine the current strong community efforts to revitalize the central business district and the inner-city neighborhoods, (2) would accentuate urban tendencies toward urban sprawl and its resulting rising municipal services' costs, and (3) would weaken the tax base on which municipal services depend for revenues; and

WHEREAS, the Environmental Protection Agency's limited data from testing oxides in one or two locations in mid-1971 severely conflicts with later state professional measurements, which EPA officials have not disproven but have refused to accept as necessarily accurate; now, therefore:

BE IT RESOLVED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND OF MARION COUNTY, INDIANA:

Section 1. The City-County Council on behalf of the citizens of Indianapolis and Marion County voices grave concern at the eroding economic and social consequences of the Proposed Regulations of the Federal Transportation Control Plan for Indianapolis of the Environmental Protection Agency.

Section 2. The City-County Council exhorts the Environmental Protection Agency to withdraw its proposed rules for Indianapolis as unverified scientifically and statistically and as unworkable without inducing severe economic dislocations and social and business disincentives for this urban area.

Section 3. The City-County Council hereby supports the testimonies of Mayor Richard G. Lugar and Councilman Stephen R. West, on behalf of its Economic Development Committee on November 28 and 29, respectively, and under the rules of procedure of that hearing, request that this action of December 3, 1973, be added to the official record of the hearing.
